4 Park Mews Gisburn, Lanc Proposed new Lounge window

for :- Mr A.Errington

## 320140780P

### Heritage Statement 4 Park Mews

### History and use of building

It's a former public house and barn converted into 4 cottages in 1994/95. Of the 4 dwellings this is the only one that fronts onto the Mews with the sidewall on Main Street.

### **Conservation area**

It sits on the edge of the conservation area.

### **Proposed work**

The present gable end wall that includes the front door has one existing window in place, on the 1<sup>st</sup> floor. The request is to put a small window in the lounge, as there is currently no window on that wall, in that room, and consequently poor natural light. The materials for this work will match existing.

# What effect will it have on the heritage/conservation area?

It will enhance the heritage, it won't detract from the overall look and it will be kept in character.

# 328140780P

## Ribble Valley Borough Council

### DESIGN AND ACCESS STATEMENT PRO-FORMA

From the 10 August 2006, planning applications relating to certain types of developments are required to be submitted with a design and access statement. When submitting an application, failure to provide a design and access statement of sufficient standard may result in a delayed registration of the application

## What Applications Need to be Accompanied by a Design and Access Statement?

Most planning applications have to be accompanied by a design and access statement, the exceptions being:

- material change in the use of land or buildings, unless it also involves operational development;
- engineering or mining operations;
- development of an existing dwellinghouse, or development within the curtilage or a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse, where no part of that dwellinghouse or curtilage is within a designated area or is a listed building. 'Designated Areas' include: 

   Conservation Areas;
   Sites of Special Scientific Interest (SSSI); and 
   Areas of Outstanding Natural Beauty (AONB).

#### Process

What factors have you considered when deciding upon the use, design, scale, layout and materials used in the proposed development?
