F.A.O: John Macholc,

Planning Application Reference: 3/2014/0791

Subsequent to my site visit and study of the application, there are several aspects which are not clear for me to give highway response.

If you can provide the following information for appropriate assessment of the application please.

1. Application form indicates 4no parking provision for proposed 4no letting bedrooms.
2. Please provide the layout plan indicating above provision of 4no parking places for proposed development.
3. Please clarify: Highways point of view adjacent car park to the proposed development is used by the general public including the residents of the nearby properties. This car park also is used for the PH. It is realised that existing parking places is already overstretched in the existing car park. Is the existing car park to be used for the parking of 4no vehicles associated with the proposed development?

Thank You

Uday Patel  
(Developer Support – Area East)
