Importance: High

David,

Please see email below which I've just sent over to Stewart and received an out of office until 3rd June.

John Macholc asked us to deal direct with Stewart (see email below ours) as you will see it's imperative that we receive a response of some description before tomorrow mornings deadline imposed by John and as Ruth has had dealings with yourself over this project suggested we contact you directly.

Any queries please contact either myself or Ruth at the details below.

Regards'

Mike Simpson. ACIAT

Stewart,

Please find enclosed our revised site layout amended to reflect your comments received via John today, could you please have a look at and let me know today whether you are happy with the revised proposals, I also enclose your letter which we have added comments as before in red. Any query please feel free to contact me or my colleague Ruth Walker at the details below. Please note this is urgent as we want all conditions dealt with in the same application, we have had this with the planning department since end of March.

Mike

Can In suggest you contact Stewart direct and get back to me. If you are unable to amend please advise. As the application date expires on Tuesday it is my intention to discharge other conditions such as materials,landscaping and renewable energy and you will have to resubmit the highway condition unless you can resolve it by tomorrow morning. I will keep hold of the NMA on the basis that you secure a revised site plan.

Subject: RE: Discharge of condition 34 Kirklands chipping

John,

Revised site and landscape layouts amended to suit the comments regarding parking to 34 Kirklands & visibility splay issues and the disabled parking provision and reversing space should the user park over the hatched markings, I trust that these answer your query to your satisfaction.

With regards the parking indicated to 14 Club View, this is outside our site area and the hatching was intended to indicate the area of making good we anticipated needing doing following the construction of the fence lines and retaining structures, it's currently used by this occupant and isn't actually a space designated by ourselves, we've removed the hatch to avoid confusion.

Can you let me know should there be anything else you require.

Regards'

Mike,

I have recently forwarded you the response from LCC on Condition 2 and await your reply. In relation to Condition 5 renewables I can not discharge until details, including a plan showing the location of the PV panels has been submitted for consideration. I note the document refers to paragraph 1.4, page 9, should it be 1.3 Page 8? Either way I do need further details.
