16th July 2015

Planning Application 3/2015/0558.

**BAE Systems Samlesbury construction of a Defence Logistics Centre
for storage and distribution of parts and materials.**

Dear Sir/Madam,

The Crime Impact Statement is formed based on local crime figures and trends, incidents reported to the police and community knowledge gathered from local policing teams. It is with this knowledge and policing experience that the recommendations made are site specific, appropriate and realistic to the potential threat posed from crime and anti-social behaviour in the immediate area of the development.

Crime Risks

This is a site with 24 hour high security for British Aerospace, crime as expected is low.

Observations

As with other developments at this site location the applicant has given notification of achieving as near as possible Secured by Design Standard.

Having seen the plans and intended specification I am sure that Secured by Design will be achieved. I therefore have no concerns in respect of this development.

Further advice on the requirements of Secured By Design is available from this office or at www.securedbydesign.com

NOT PROTECTIVELY MARKED

If I can be of any further assistance please do not hesitate to contact me.

Yours sincerely

Terry Burke
