Subject: RE: Woodys Cafe Sawley

Dear Mr Major

I hope here I have answered the questions relating to my planning application, apologies for what has not been included, thank you for your understanding and advice in your first email.

Interior plan

Attachment 1 contains an interior plan showing the lay out of the kitchen and seating area.

Proposed sign

Attachment 2 shows how the new sign would be placed. I have looked at the application and have realised this only has the measurements of the existing sign, huge apologies for this, when it was decided the new unit would have a window in the end where the sign is to be placed I had to change the measurements and allow for a cut out space where the window sits, unfortunately it looks like I did not save the changes on the application forms. The plan here shows this correctly.

Replacement unit

Attachment 3 shows a 10ft x 32ft portable anti vandal steel container. This is what I would like to buy as a replacement unit. I am proposing a painted dark green finish for the unit but I am open to negotiate the finish depending on what the council would prefer.

Attachment 3 also shows the toilet block in more detail.

Sink waste

The sink waste will be emptied by the same contractor who empties the porta-loo. Waste is taken every week and if I am particularly busy and using more water I ring up and have the tank totally emptied.

Please let me know if there is anything else you need and I will get it to you asap.

Many thanks, best regards,

Katie Williams
