With regard to your letter dated the 21<sup>st</sup> March 2016.

The Highway Development Control Section does not have any objections regarding the proposed change of use to for a single dwelling and are of the opinion that the proposed development should have a negligible impact on highway safety and highway capacity in the immediate vicinity of the site.

Based on the car parking recommendations in the Joint Lancashire Structure Plan and the Ribble Valley Parking Standards, the Highway Development Control Section is of the opinion that the proposed change of use to for a single dwelling will have less of a car parking requirement than the current use of the site.

If you have any questions please do not hesitate to contact me.

Yours sincerely

Highway Development Control Engineer
