Environment Agency position

We have no objection in principle to the proposed development, but wish to make the following comments:-

Flood Risk

The application site lies within Flood Zone 3, which is defined as having a high probability of flooding in the national Planning Practice Guidance. In this case, the proposed development is low risk and therefore would not be at an unacceptable risk of flooding or exacerbate flooding elsewhere.

Advice to applicant

Environmental Permitting – Flood Risk Activities

As of 6 April 2016 the Flood Defence Consent regime has moved into the Environmental Permitting Regulations.

The River Ribble adjacent to the site is designated a Main River and the developer may need an Environmental Permit. They should check at <https://www.gov.uk/guidance/flood-risk-activities-environmental-permits> and contact Flood Risk Officer, James Jackson, on 020 302 51306 to discuss our requirements if a permit or advice is required.

The Environment Agency has a right of entry to the River Ribble by virtue of Section 172 of the Water Resources Act 1991, and a right to carry out maintenance and improvement works by virtue of Section 165 of the same Act.

It should be noted that the grant of planning approval does not guarantee that any necessary permissions or consents that are required under separate legislation will be forthcoming.

We also recommend the following 'Living on the Edge' guidance which is available on the GOV.UK website:

A copy of this letter has been sent to the applicant/agent.

Yours faithfully
