Re 11 Gisburn Road, Bolton by Bowland, BB7 4NP

Dear sir or madam,

Having recently purchased the above property, we would like to carry out works to change it to what we believe to be its original general configuration, of two small cottages. We are therefore making the enclosed planning application in order to request permission.

The current layout would support the idea that there has been a minor change made to provide one opening in the downstairs front room wall. This provides access to both sides of what is now classed as number 11.

During our purchase it came to light that the property is listed in either configuration depending on the Authority etc. For council tax purposes it is one property, but two properties in listed building information and as far as service providers are concerned such as Water and Electricity etc.

We have been advised to make the application on the basis of it being one property which we would like to make into two; I am therefore including this letter just to explain our reasoning for doing this. I do hope that this is acceptable. If there is any further information or help I can provide then please do contact me.

Thank you for your consideration in this matter.

Yours sincerely

S M Cresswell
