Morning Robert,

I refer to the above application and I would wish to raise an objection to the proposals on the grounds of the loss of public amenity parking causing additional parking demand on already congested residential streets to the detriment of highway safety and residential amenity.

The information submitted with the application and the additional Technical Note only deal with the parking demand currently generated on the site car park and the adjacent public car park and does not acknowledge the existing parking demands on the adjacent residential streets. There is no doubt that the public car park is used by local residents and businesses both during the working day and also overnight, its loss would see these vehicles moving to the local streets which are already congested
