FAO Rebecca Halliwell,

No formal comments to make with regards to application number 3/2017/0811. The site is within an area noted as land possibly affected by contamination, but due to the nature of the proposal and the fact that the land has already been developed I don't feel any conditions would be necessary.

Thanks

Good morning Daniel,

Please can we have your comments on the above application?

(please respond to planning@ribblevalley.gov.uk FAO Rebecca Halliwell)

This application is for a single storey extension to side and first floor extension to side. It is on contaminated land.

Here is a link to view the application on our website:
