

Dimensions should not be scaled. All dimensions to be checked on site by the contractor before commencement of the relevant part of the work.

Figure 1 is a line graph showing the number of cases of acute myocardial infarction (AMI) in the United States from 1980 to 1995. The x-axis represents the year, with labels at 0, 1000, 2000, 3000, 4000, and 5000. The y-axis represents the number of cases, with labels at 0, 1000, 2000, 3000, 4000, and 5000. The graph shows a steady increase in cases over time, starting at approximately 1000 in 1980 and reaching approximately 4500 in 1995.
