Dear Richie,

I attended a site visit with your colleague Chris on 29th March 2018 and we did a joint dilapidation survey

I have kept photos of this visit in the file for the development

I can confirm that a joint dilapidation survey was carried out

Kind Regards,

Louise Hemingway

Hi Louise,

Tried to give you a call but just rang out. Couple of things, firstly, do you have a certificate/or confirm via email that a joint delap survey has been undertaken with yourself and Chris?

Secondly, our groundworker has mobilised o site and materials are being delivered. They will be starting to dig to put the drain up the main access road tomorrow. They are getting 6F2 delivered to site today/tomorrow and we are wondering if you are available on Friday at some point to have a look at the material being delivered and see if it is acceptable to be used as backfill over the drains within the adopted road and to have a look at the formation whilst the ground is open?

We have had some more CBRs completed on the existing ground prior to the drain and I will send these over with a plan of their position at the end of the week.

Also do you have a drainage inspector contact that we could get in touch with for the drainage within the adopted roads?

Kind regards,

Richie

Richard Harris
