FAO A Birkett

Dear Mr Birkett,

As you will be aware Oxford Archaeology North have recently provided a copy of their report on the excavation of trial holes on the 9 Greenside site. Whilst these did not show the presence of important archaeology, we consider that as a precaution a watching brief should still be maintained during the development.

We can, however, alter the suggested planning condition set out in our letter of 4th December (copy attached), so that item (i) is omitted and items (ii) and (iii) renumbered.

I hope that this is acceptable to you.

Yours sincerely

Peter Iles
Lancashire Archaeological Advisory Service
