Has the development been completed?

Yes  No

#### 5. Condition(s) - Removal

Please state why you wish the condition(s) to be removed or changed

The condition relates to the materials used in the development. The proposed roofing material for the demonstration barn was originally a sedum living roof. During the preparation of calculations for the specification of the steel structure of the building a number of factors have come into play which make this material impractical. The pitch of the roof is steeper than recommended for sedum roofs and the additional cost is in excess of £120/m<sup>2</sup>. A decision has been made to alter the roofing material to a type which allows a more practical alternative, whilst maintaining the natural appearance of the roof.

If you wish the existing condition to be changed, please state how you wish the condition to be varied

The condition to allow the roofing material to be fibre cement sheets which will be treated to encourage lichens, liverworts and mosses to colonise the sheets to give a natural weathered appearance. A full description of the materials and methods used is laid out in a supporting statement.
