

Is the proposed development designed for the purposes of agriculture? (Please explain how)

The property has recently been purchased (less than a month ago) along with 10.8 hectares of land. There are no storage buildings to serve the unit.

Are there any future plans that are relevant to the proposed development? (Expansion of herd/diversification ect.)

5. Any further information

The applicant has only owned the unit for 30 days and seeks permission under prior notice for two storage buildings. In the future he hopes to buy some sheep and beef cattle to keep on the land.
