

# Education Contribution Assessment

**Spout Farm - 3/2020/0309**

*Ribble Valley Borough Council*

28/10/2020

## **Education Assessment 28<sup>th</sup> October 2020**

Lancashire County Council is responsible for the provision of school places across the 12 county districts. The county has been facing significant increases in the birth rate at the same time as capital funding from the Department for Education has been significantly reduced.

In accordance with Lancashire County Council's 'School Place Provision Strategy', the following will apply:

Where the growth in pupil numbers is directly linked to housing development and existing school places are not sufficient to accommodate the potential additional pupils that the development may yield, Lancashire County Council would seek to secure developer contributions towards additional school places. Only by securing such contributions (which, depending upon the scale of development, may also include a contribution of a school site), can Lancashire County Council mitigate against the impact upon the education infrastructure which the development may have.

This assessment shows the level of impact on primary and secondary school places relevant to the following development and provides details on the level of contribution required to mitigate the development impact:

### **Spout Farm**

#### **Pupil Yield**

Through a detailed research project carried out during 2012 LCC have established a pupil yield to be applied for the bedroom mix within a development.

Using the Rightmove database (based on Land Registry information), a cross matching exercise was undertaken to match the first occupation of a house with the relevant School Census. The research enabled LCC to ascertain the likely impact of a dwelling with 1, 2, 3, 4, or 5+ bedrooms in terms of the child yield. This enabled LCC to project the pupil yield of new houses, based on the number of bedrooms per dwelling.

LCC will seek to apply these pupil yields to our assessment, however, if bedroom information has not been provided by the developer LCC will apply the 4 bedroom yield, to provide a medium to worst case scenario. Once bedroom information is available the impact of this development will be reassessed using the yield information provided in the 'Development details' section below.

### Local primary schools within 2 miles of development

When assessing the need for an education contribution from this development Lancashire County Council considers primary school provision within a 2 mile radius of the proposed site. Details of the schools relevant to this site are provided below:

School Name	Latest Number on Roll *	Future Planned Net Capacity (Jan 2025) **	Projected Pupils by Jan 2025 ***
Alston Lane Catholic Primary School Longridge	191	210	192
Longridge Church Of England Primary School	165	208	190
St Wilfrid's Roman Catholic Primary School Longridge	187	210	194
Barnacre Road Primary School Longridge	171	210	205
Grimsargh St Michael's Church Of England Primary School	209	210	298
<b>Total</b>	<b>923</b>	<b>1048</b>	<b>1079</b>

\* Latest Number on Roll (NOR) reflects the most up-to-date pupil numbers at the school. Assessments between 1<sup>st</sup> December and 31<sup>st</sup> March will use October NOR, assessments between 1<sup>st</sup> April and 31<sup>st</sup> July will use January NOR and assessments between 1<sup>st</sup> August and 30<sup>th</sup> November will use May NOR.

\*\* The net capacity figure is agreed via consultation with the schools, during September each year. The future net capacity includes any agreed capacity changes, which LCC have been informed about.

\*\*\* Based on the latest projections at the time of the assessment. Please note that the figures provided are based upon current circumstances and this position is subject to change in response to a number of factors that can affect parental preference. The figures take into account the latest available birth information, evidence of migration and also the projected pupil place demand in 5 years.

Projected places in 5 years: -31

Additional information which may provide context to the figures above has been included in the table below. This table provides year by year pupil projections for the schools affected by the development.

JAN 2021	JAN 2022	JAN 2023	JAN 2024	JAN 2025
906	913	920	924	952

The figures above show the forecast number on roll before housing and migration is applied. Using the appropriate district's 5 year Housing Land Supply documents (or

equivalent) and migration figures in 5 years' time we forecast there will be **1079** pupils in these schools.

### Development details

Number of bedrooms	Yield applied per dwelling	Number of dwellings	Primary yield for this development
1	0.01		
2	0.07	5	0.35
3	0.16	6	0.96
4	0.38	23	8.74
5	0.44		
<b>Totals</b>		<b>34</b>	<b>(10.1) 10 Places</b>

### Education requirement

Latest projections for the local primary schools show there to be a shortfall of 31 places in 5 years' time. These projections take into account the current numbers of pupils in the schools, the expected take up of pupils in future years based on the local births, the expected levels of inward and outward migration based upon what is already occurring in the schools and the housing development within the local 5 year Housing Land Supply document (or equivalent), which already have planning permission.

With an expected yield of 10 places from this development the shortfall would increase to 41.

Therefore, we would be seeking a contribution from the developer in respect of the full pupil yield **of this development**, i.e. 10 places.

## Local Secondary schools within 3 miles of the development

When assessing the need for an education contribution from this development Lancashire County Council considers secondary school provision within a 3 mile radius of the proposed site. Details of the schools relevant to this site are provided below:

School Name	Latest Number on Roll *	Future Planned Net Capacity (Jan 2025) **	Projected Pupils by Jan 2025 ***
St Cecilia's Roman Catholic Technology College Longridge	416	480	546
Longridge High School - A Maths And Computing College	770	825	848
<b>Total</b>	1186	1305	1394

\* Latest Number on Roll (NOR) reflects the most up-to-date pupil numbers at the school. Assessments between 1<sup>st</sup> December and 31<sup>st</sup> March will use October NOR, assessments between 1<sup>st</sup> April and 31<sup>st</sup> July will use January NOR and assessments between 1<sup>st</sup> August and 30<sup>th</sup> November will use May NOR.

\*\* The net capacity figure is agreed via consultation with the schools, during September each year. The future net capacity includes any agreed capacity changes, which LCC have been informed about.

\*\*\* Based on the latest projections at the time of the assessment. Please note that the figures provided are based upon current circumstances and this position is subject to change in response to a number of factors that can affect parental preference. The figures take into account the latest available birth information, evidence of migration and planned housing development, to provide a 5 year projection.

Projected places in 5 years: -89

Additional information which may provide context to the figures above has been included in the table below. This table provides year by year pupil projections for the schools affected by the development.

JAN 2021	JAN 2022	JAN 2023	JAN 2024	JAN 2025
1263	1302	1288	1316	1281

The figures above show the forecast number on roll before housing and migration is applied. Using the appropriate districts 5 year Housing Land Supply documents (or equivalent) and migration figures in 5 years' time we forecast there will be **1394** pupils in these schools.

**Development details**

<b>Number of bedrooms</b>	<b>Yield applied per dwelling</b>	<b>Number of dwellings</b>	<b>Secondary yield for this development</b>
1	0.00		
2	0.03	5	0.15
3	0.09	6	0.54
4	0.15	23	3.45
5	0.23		
<b>Totals</b>		<b>34</b>	<b>(4.1) 4 Places</b>

**Education Requirement**

Latest projections for the local secondary schools show there to be a shortfall of 89 places in 5 years' time. These projections take into account the current numbers of pupils in the schools, the expected take up of pupils in future years based on the local births, the expected levels of inward and outward migration based upon what is already occurring in the schools and the housing development within the local 5 year Housing Land Supply document, which already have planning permission.

With an expected yield of 4 places from this development the shortfall would increase to 93.

Therefore, we would be seeking a contribution from the developer in respect of the full pupil yield **of this development**, i.e. 4 places.

## Summary and Calculations

This assessment represents the final position to inform committee, assessed on 28/10/2020 but will be adjusted by indexation at the point of payment.

The latest information available at this time was based upon the 2020 School Census and resulting projections.

Based upon the latest assessment, taking into account all approved applications, LCC will be seeking a contribution for 10 primary and 4 secondary school places.

Calculated at the current rates, this would result in a claim of:

### Permanent expansion

Primary places:

$(£17,268 \times 0.97)$

= £16,749.96 per place

$£16,749.96 \times 10 \text{ places} = \textbf{£167,499.60}$

Secondary places:

$(£23,775 \times 0.97)$

= £23,061.75 per place

$£23,061.75 \times 4 \text{ places} = \textbf{£92,247.00}$

If this is not the final point of decision or later information becomes available prior to decision, LCC reserve the right to reassess the education requirements taking into account the latest information available. It should be noted that if this is an outline application the development impact should be reassessed on reserved matters approval, taking into account detailed bedroom mix information. The use of a formula to enable this should be agreed as part of the planning decision process.

### **Expenditure Project**

Following an initial scoping exercise of the local schools it has been determined that Lancashire County Council intend to use the primary education contribution to provide additional primary places at Longridge CE Primary School and/or St Wilfrid's Roman Catholic Primary School. Longridge. These are the closest primary schools to the development that have space to accommodate an expansion.

It has also been determined that Lancashire County Council intend to use the secondary education contribution to provide additional secondary places at St Cecilia's Roman Catholic Technology College Longridge and/or Archbishop Temple Church Of England High School and Technology College Preston. These are the closest

secondary schools to the development that have space to accommodate an expansion.

Whilst the County Council have confirmed its intention to deliver projects at Longridge CE Primary School and/or St Wilfrid's Roman Catholic Primary School. Longridge and St Cecilia's Roman Catholic Technology College Longridge and/or Archbishop Temple Church Of England High School and Technology College Preston, it should be noted that this would be subject to the following:

- willingness of school governing body to expand
- suitability of site
- planning permission & compliance with Section 77 of the Schools Standards and Framework Act 1998 and Schedule 1 to the Academies Act 2010.
- consultation with local schools and the community
- parental preference at the time that the places are required
- school standards at the time that the places are required
- availability of other funding streams

Should the primary and/or secondary education contribution not be spent on the project named within this assessment, the County Council will return the entire sum to the owner. Furthermore, the County Council will ensure that sufficient local primary and secondary school places are provided to address the impact of the development at no cost to the owner.

### **Please Note**

- **This is the final position to inform committee, assessed on 28/10/2020. If the decision is deferred at committee a reassessment for committee will be required.**
- **The cost per place used in this assessment is in line with the Education Methodology at the point of assessment. However, the cost per place to be used within the s106 agreement, if this is the district's chosen method of mitigation of the development impact on school places, will be that within the Education Methodology at the point of sealing.**

### **Further Information**

If the education contribution assessment identifies the need for a contribution to be provided Lancashire County Council is, in effect, objecting to the application. A developer contribution to deliver school places, to Lancashire County Council as the education authority, including indexation will, in most cases, overcome the objection. If a developer does not agree to payment of the requested education contribution or the local planning authority does not pursue Lancashire County Council's request on its behalf, Lancashire County Council cannot guarantee that children yielded by the development will be able to access a school place within reasonable distance from

their home, so the development could be considered to be unsustainable. Furthermore, if the planning application is approved without the required education contribution LCC would request that the local planning authority confirm how the shortfall of school places, resulting from the development, will be addressed. (Please see page 10 of the Education Contribution Methodology).

If you require any further information about the assessment process (including the current rates), in the first instance, please refer to LCC's Planning Obligations Education Methodology and supporting information at:
