Eastham House Farm, Mitton

Thank-you for the additional information confirming the vehicle movements associated with the existing building as requested in my original comments.

The number of existing vehicle movements are low and there is no anticipated increase in the number of movements as a result of the proposal additional building.

When I visited site there was no evidence of debris being tracked onto the road and I am satisfied that the proposal will not cause any increased highway safety concerns.

There is no objection to the proposal.

Kelly Holt
