Dear Sir / Madam,

I have lived most of my life in Waddington and have many friends and relatives in the village.

Following my marriage we lived at Spring Gardens, Waddington prior to moving to West Bradford a few years ago.

I have seen the planning application in respect of Parsons Croft and I think it is completely inappropriate. I know historic Glebe House well and am appalled by how (as a historic property), it would be affected by this development, due to the size and height of the new house.

PTO

Also, its design is out of character
for Waddington which is a much
more traditional village.

Please refuse this application.

Yours faithfully
