## 23. Pre-application Advice

Whilst the Council would be broadly supportive of the economic growth which could arise from the scheme, for the reasons detailed in this response, I have concerned that large elements of the proposal would represent inappropriate development in the Green Belt. In order to overcome this, you would not only need to demonstrate that 'very special circumstances' exist to outweigh this harm, but also any other harm, such as openness and landscape impact. The aforementioned appeal decision demonstrates the level of justification required to establish such circumstances (having initially progressed on the basis of meeting nationally important rail infrastructure requirements). Based on the information provided at this stage and with due consideration that I must give substantial weight to any Green Belt harm, I do not believe that the scheme would meet local or national policy tests. Should you wish to proceed to a full application, I would reaffirm my view that you seek independent planning advice and appoint an experienced consultant to act on your behalf due to the complexities of the submission. The application package would need to contain a substantial amount of supporting information to outweigh the issues I have identified. You would also need to demonstrate that the site represents a suitable and appropriate location for this scale of employment development, accounting for the Council's strategic policies in this regard and recent draft allocations in the Housing and Economic Development DPD.

## 24. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

Yes  No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
