From [REDACTED]

I oppose the application.

Noise. Building houses necessarily means noise , also removing existing buildings. Heavy traffic bringing goods needed will be on a narrow winding road probably necessitating gear changing, both noise and air pollution,.

Parking cars unable to use the drive will narrow the road, dangerous for pedestrians and vehicles.

the building being two storey could impinge on the light in the side bedroom mine is a bungalow. I haven't tracked the sun in the different seasons.

Non material considerations Personal consideration.

[REDACTED] during the time he/ they have been here. They have built a Swiss type chalet in the back garden and sunbathing platform. These took months work continuing every day even weekends. When I asked them not to work weekends the answer "It has to be done".

I'm widowed my family abroad so only contact is by What's app. [redacted] I suffer from depression triggered by stress and unlike most people my age my hearing is super sharp. I believe [redacted] will be with us for months and shielding will mean being alone, all the building noise will be very distressing to my health.
