comments: I make the following comments with regard to the planning application. 1. The existing garage has already been removed prior to permission being granted. 2. My property is directly opposite and it should be stipulated during the build that my access to and from my property should not be compromised by contractors vehicles. 3. Also with my property being directly opposite. What guarantees are there that my boundary wall will not be damaged by contractors large vehicles accessing the building site. 4. What licences have been obtained for the wastes that have already been removed from the site? I expect none as all the waste was removed on farmers trailers.
