- From 1 August 2020, details on the provision of adequate natural light in all habitable rooms of the dwellinghouses

Proposed change of use of agricultural buildings (Redundant Lamb and Pig Sheds) to one dwelling (C3) and associated operational development. Please refer to drawing and documentation submitted.

Are any associated building works or other operations required to make this change?

Yes  No

Note that such works are restricted to those listed below that are reasonably necessary to convert the building(s) for use as a dwellinghouse:

- the installation or replacement of windows, doors, roofs, or exterior walls;
- the installation or replacement of water, drainage, electricity, gas or other services;
- partial demolition to the extent reasonably necessary to carry out the works listed above.

If yes, please provide details of the design and external appearance of the building(s) in regard to these building works or other operations:

As per proposed drawings, the steel frame shed will be internally developed with cavity walls and insulation followed by an external finish in a combination of stone and timber. New windows and doors are required in keeping with local buildings in wood. The existing fibre roof will be replaced with an insulated black metal and integrated solar array.  
The property will require a dedicated electrical and water supply however as per proposed plans it is our intension to make the property as eco as possible with solar panels creating an additional power support and a bio fuel boiler for heating and hot water.  
Surface water can be drained of into the field and subsequently down the brook in to the stream. A dedicated treatment plant will be installed to support household foul sewage.
