Whilst the Parish Council have no objections to the plans could the following be considered:-

1. The design of the proposed bungalows would be in keeping with the general appearance of Bank Cottages, but it IS a tight site. The Parish Councils no objects is to be subject to comments from the existing residents of that end of Bank Cottages. Application says that these buildings will be no closer than 40 feet to existing cottages, but site looks closed in, if you look at it from the road.
2. Is visibility from the A666 good enough and safe for this application, this is in an awkward place just near the railway bridge.
3. Billington village is currently suffering with water supply problems . The Parish Council requests that RVBC should send the plans to United Utilities with the simple question 'is it happy to supply water to 2 extra properties off the main pipeline?'"
