14 June 2021

Dear Sir

**SABIC UK PETROCHEMICALS  
TRANS-PENNINE ETHYLENE PIPELINE**

**Planning Application No 3/2021/0278, Ground mounted installation of  
solar array for energy generation  
Location: Dudland Hollins, Gisburn**

Thank you for your recent planning application, Ref **3/2021/0278** dated  
11 June 2021.

The proposed development is situated in the same parcel of land as the TPEP,  
and falls within the inner consultation zone of the above Major Accident  
Hazard Pipeline as defined by the HSE development control guidelines (PADHI  
– HSE's Land Use Planning Methodology document). I would advise that the  
fenced area is kept outside the pipeline 6m easement.

In terms of the safety and engineering integrity of the pipeline, the developer  
of the solar installation will need to submit their design drawings for approval.  
The areas of concern for SABIC are location of metallic structures / routing of  
electrical cables and the impact on land drainage schemes close to the  
pipeline.

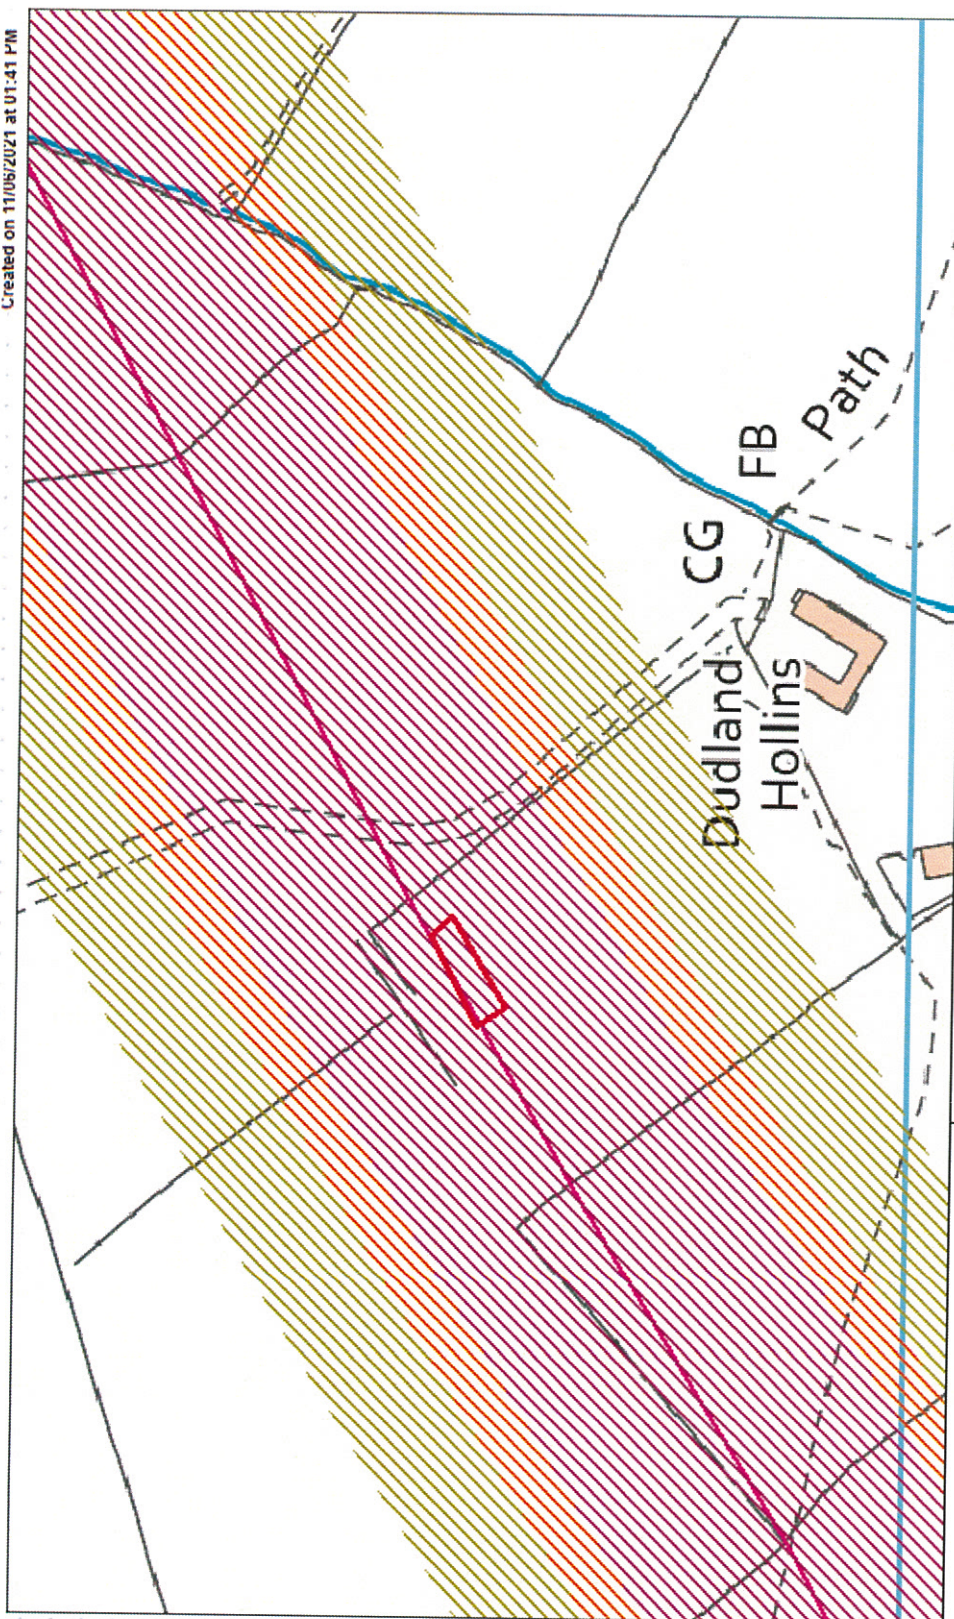

I would also advise that SABIC is to be consulted for all work within 50  
metres either side of the pipeline.

Yours faithfully

*G L Glover*

G L Glover
