

Parker Place Farmhouse Wiswell. Photographs April 2021

1 Main elevation of Parke Place Farmhouse separated from the yard by a stone wall which enclosed the garden to the farmhouse. The tractor shed is accessed from the yard this building was formerly a pig sty.

2. Main entrance is in the lean-to on the north east gable of the house.

3 Garden looking north west

4 Garden looking south

5 The rear garden gate and coal house which are separated off from the yard. Viewed from the yard.

6 The gully which runs through the yard covers below surface a flat-bottomed water channel visible beneath the grid.

Diagram of the site shown location of buildings and uses.
