

Proposed South East (Beechthorpe Avenue) Rear Elevation

New single storey extension with rendered walls and stone surrounds (to match original house), to replace existing uPVC conservatory. This will enhance the overall appearance of the house from Beechthorpe Avenue and significantly reduce the extent of reflective glazing which is noticeable during the day and lit up at night.

Existing uPVC conservatory to be removed.

Awkward hipped roof to be replaced.

Existing South East (Beechthorpe Avenue) Rear Elevation
