**STATEMENT TO SUPPORT THE FIELD GATE
THE RANN, SACCARY LANE
MELLOR
LANCASHIRE**

Location

The gate is positioned on Saccary Lane to provide access from the lane into the field and is set back from the road edge. Please refer to the site plan/detail sheet for the relevant information. It is a traditional metal barred gate fixed between timber posts.

Client Statement

The gateway is required because the only current access into the field north of The Rann is through our garden and between old outbuildings. This is too narrow for farm tractors and equipment to pass through.

Moving sheep and other animals through the present access causes damage as they have to pass through our garden.

The new gateway is located on a level site in a very safe position with good sight lines onto Saccary Lane in both directions. The new gateway is recessed into the field for safer access onto the road. It also provides a safe viewing place for people to see the sheep/lambs in the field as they walk along the lane.
