Dear Mr Macholc,

**RE: Planning Application No: 3/2021/0660 and 0661 – Marl Hill Section of works to the Haweswater Aqueduct**

We [redacted] We have concerns for  
UU's road and parking restrictions suggested for the junction of Waddington and Slaidburn Road.  
We [redacted] At busy times of the year this  
could be [redacted] it could be twice a week. Access  
and highway safety to allow us to [redacted] are our main priority. (See map  
attached)

Any traffic calming measure must not [redacted]  
[redacted]

Secondly, [redacted] I don't  
think the traffic calming measures properly address the highway safety of pedestrians along  
Slaidburn and West Bradford Road. Narrowing the width of the bridge between 75 and d 71 West  
Bradford Road does not seem feasible.

The Square, parts of Slaidburn Road and West Bradford Road are within the boundary of  
Waddington Conservation Area as such any proposals need to take this into account to keep the  
special appearance of our village.

Yours sincerely
