

Notes
 PP - Passing Place RW - Road Widening
 Refer to Sheets 11 & 12 for typical sections for treatment of passing places, road widening and boundary feature reinstatement proposals. Typical treatment will depend on where proposals are on level ground, shallow cut, deep cut, shallow fill or deep fill.
 All passing places are temporary proposals and will be reinstated to existing on completion of the scheme. Road widening works and junction improvements solely within the public highway limits would be retained, with affected walls and/or hedgerows reinstated as appropriate. Road widening or junction improvement works in third party land would be reinstated to match pre-entry condition upon completion of construction.
 Refer to Off-site Highways Works Master Plan LCC_RVBC-BO-FIG-V5-P1-001 within Volume 5 of the Environmental Statement for Bowland for the schedule of the road widening and passing places.
 Refer to Proposed Bowland Section Environmental Statement, Volume 5 Figures for details of works in relation to trees.

Legend
 Site Red Line Boundary
 Dry Stone Wall to be removed and reinstated upon completion
 Proposed Road widening up to 2m
