Address of Development: Bb7, Newton in bowland

Comments: As a resident of Newton [REDACTED] I am saddened by the news of HARP occurring in our village. [REDACTED]

[REDACTED]

[REDACTED] When I found out about the plans for HARP to occur in an area of outstanding natural beauty I was shocked and saddened because of firstly the impact it will have on the village but also the environment. We regularly walk the path that will, should this go ahead, be a two way road and on our walks we often meet people who have travelled far and wide to visit our beautiful area, HARP will remove most of the desirable features of the village. [REDACTED] I cannot believe that this is allowed, with the impact it will have on wildlife of which our village and the surrounding area is full of. I personally have seen Otters, Kingfishers, Deer and Hedgehogs to name a few species. I hope that you are able to take my comments and thoughts into consideration.

Comments: This will disrupt driving on the scenic roads to clitheroe with big lorries every 2 minutes driving down. Also from where I live it's usually quiet and refreshing. However if there is constant construction going on. It will deprive us of our quiet and refreshing atmosphere that the countryside is known for.

Comments: I'm shocked that this massive project has got this far because WE LIVE IN AN AREA OF OUTSTANDING NATURAL BEAUTY! If HARP goes ahead we will not live in an AONB anymore. It will disappear.

peace, tranquility and beauty. That will no longer be the case [REDACTED] will disappear. This will also mean the money they spend in Clitheroe and the area surrounding will disappear.

We often walk along the river where the new road and bridge are planned. I'm guessing the beautiful otters will also disappear along with the numerous other creatures and plants that live in that area.

Quite simply this project will devastate an area that is protected and along [REDACTED] my enjoyment of local walks and everything I hold dear in this beautiful area.

PLEASE SAY NO TO HARP!

Comments: [REDACTED] because of its natural beauty and the fact that it sits in the heart of the Ribble Valley in an area of outstanding natural beauty, and indeed for the time we have lived here we have enjoyed all that this special area has to offer. The wildlife in the area is also outstanding with deer and otters (in the river Hodder right near where the bridge is proposed to be built) are a regular sight. People visit the area because of its peaceful beauty. There are few places in the country that are accredited AONB and I feel that if this planning is approved it will destroy that title for the residents and the thousands of people that visit this beautiful village.

I also believe that there will be heavy vehicles coming towards the village at a rate of one every two minutes. I worry about the safety on the roads, the noise and pollution that this will create.

The tranquil, peaceful and safe nature of our village will be ruined!

I am also very worried about what this will do to tourism in the village and surrounding area, who wants to visit a noisy, dirty village situated on a road that will very busy and dangerous. There are a number of businesses in the area (holiday lets, village shops, pubs and restaurants) these are people's livelihoods that will be affected!

Please help us protect this area of outstanding natural beauty and stop it from becoming an area of dirty dangerous lorry's that no one wants to visit.
