Dear Sirs

I am a resident on xxxxx in Chatburn and exiting from xxxxx onto Ribble Lane is already dangerous with current traffic levels.

I have witnessed several near misses due to the congestion surrounding the shops on the village green . The parking of residents on the side roads makes the through access very narrow and also restricts the views of drivers when turning at the junctions.

In my opinion to add a large vehicle movement on average of every 6 minutes onto an already congested and dangerous road system would be very risky indeed on safety grounds.

The route 2 idea sounds much more sensible.

Regards
