Dear Ms Hopkins,

I am taking this opportunity to email you as a very concerned [REDACTED] Waddington resident. I have submitted comments on the relevant planning application but wanted to share these with you too. I have also contacted UU on several occasions but find effective communication with them very difficult.

I appreciate you taking time to read through our concerns. I am more than happy to discuss this further or answer any questions you may have.

[REDACTED] this is directly opposite the [REDACTED] immediately on the road side, where the proposed immense amounts of work traffic and HGVs will be passing.

[REDACTED] very concerned about this project and the proximity of such large amounts of HGV to [REDACTED] property. As [REDACTED] situated right on the road side [REDACTED] in a very vulnerable position for this traffic. [REDACTED] concerns re impact of the HGVs on [REDACTED] property and how this will be monitored and dealt with if issues arise? The increased level of dust and noise directly to [REDACTED] house [REDACTED] will likely need to have new windows put in to make this manageable - UU said they would look to support this financially - but [REDACTED] have heard nothing from them for over a year. [REDACTED] also worried about the risk of incident with such large amounts of HGV coming up and down the fell road, there is no pavement outside our house and a tight junction. This surely poses a huge risk of incident putting both pedestrians and our property in danger?

[REDACTED] feel there has been very little/ no communication or attempt to consult with residents such as ourselves who are going to be so directly and negatively impacted upon by this project.

With thanks in advance for your support in this matter,

Yours Sincerely,
