Woodstone Bat Roosting Box

This crevice roosting bat box has been manufactured from hard-wearing WoodStone and carries a lifetime warranty. The woodstone material is not only durable but also absorbs heat from the sun which provides a thermal cavity that bats will love to roost in.

WoodStone® is a mixture of sawdust from FSC wood sources and concrete, and it is designed to last for years. It is breathable so there will be no problems with condensation and Woodstone maintains a consistent temperature inside, providing excellent insulation for roosting bats.
