

Proposed sheep shed located on boundary adjacent to existing sheds on next door farm.

Open sided building steel portal frame with secure store for feed and machinery at one end. Concrete slab with metal gates between steel stanchions.

Profile metal cladding to roof, with slatted timber cladding at high level.
Dark green metal cladding to secure store as existing sheds next door.

Existing boundary hedges retained with 3.6 m between hedge and building for access and maintenance.

Access for animals via existing farm gate in fence along side of access road.
