

PLANNING OFFICER  
RVBC

APPLICATION NO 3/2022/0026

Dear [REDACTED]

Enclosed are the before and after photos of the area where they want to put new pitches on. As you can see it was lovely. This also affects the wildlife on the park i.e. rabbits, squirrels and birds. The site licence says only 105 pitches and that is what it should be, that is why we are strongly objecting to this planning application. They should be made to put it back to how it was. Could you please put this in the file with any other objections.

Regards  
[REDACTED]
