[REDACTED]

Planning Application Reference No.: 0130

Address of Development: 9 Moor Field, Whalley.

Comments: I would request that my previous comments are revisited, as they remain relevant. This proposal would be an intrusive development in a street with a preponderance of bungalows. To turn this dwelling into a house would be obtrusive and ungainly, and would reduce the number of bungalows in the area, which is a backward step, given the demand for such properties. The existing houses in the street were planned from the outset, and are sited in such a way that they do not tower over single storey properties, which [REDACTED] proposed building would certainly do. If I wished to own a zebra, I would not buy a horse, and then try to alter it, and I fail to see why anybody would buy a bungalow and immediately try to make it into something else.
