I wish to register my objection to the above application. The original permission for a snail farm was approved partly as a result of the visitor centre which has now been removed. This is not a suitable location for an office block and the concerns about access to the site remain. Local residents are alarmed by the extensive interference with Boyces brook and the removal of substantial rocks from its banks. The risk of flooding downstream of the site is worrying. The present chaotic appearance of the site with random pre fabricated units and shipping containers does not bode well and I urge officers to refuse this application, [REDACTED]
