Address

Clitheroe Cricket Club
Chatburn Road
Clitheroe
BB7 2AN

I am aware of a new planning application to extend the seating area, but I was unable to find the original application for first seating area and the change of use from sports pavilion to a bar area and the removal of trees.

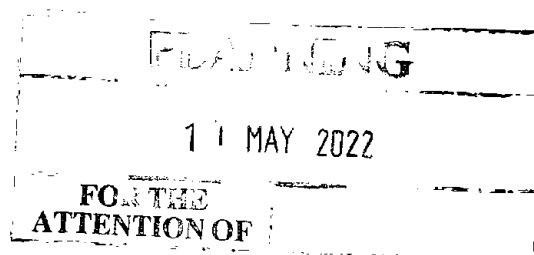

This area is mainly used for larger cricket games (T20), when large crowds gather, but it is also used for other events and live televised sporting events for example the world cup. This is where they show no consideration for the residents.

When these events take place there is an influx of young youths bringing their own alcohol on site more litter, more noise and increase in anti-social behaviour. The lack of facilities means that people are using the surrounding areas and public highways as a toilet even when children are present. Parking on grass verges, dropped kerb and just generally parking inconsiderate for other road/pedestrian users.

We would like to object to the extension of this area on the grounds it will encourage more people to attend thus making the above worse. It will also encourage more people to gather in the evening/night in general.

Find attached extra pictures

If this planning application goes ahead. Moving forwards a list of events that are going ahead and the disruption this will could caused and how to minimise this for all residents. In other words, working with residents and keeping them informed.
