Stephen Kilmartin; Planning

Planning Application No 3/2022/0399

This email originated from outside Ribble Valley Borough Council. Do **NOT** click links or open attachments unless you recognize the sender and are sure the content within this email is safe.

Dear Mr Kilmartin,

I am writing to you in response to the letter I received dated 6 May 2022 and in response to planning application no. 3/2022/0399 for a proposed erection of two new dwellings and garages.

As a resident of [REDACTED] I have great concerns regarding the bridge on Cloughbank which has existed since 1870's.

Previously, when the proposed site was used for storage of materials for the development of The Manor House Residential Home I believe materials were transported over Heys Brook via an alternative route between the Manor House and the land for which the planning application has been submitted as the land on both sides of the brook were owned by the same people. However, my concern is that The Manor House has since been sold and the only remaining access for any development is over the Victorian bridge on Cloughbank lane which is already deemed to be 'weak'.

I would be grateful if you could inform me of the meeting date for this application at the Planning & Development committee.

I have attached a photo of the bridge for which will allow access to the building site.

Yours faithfully,
