Site details

Region	North West
Local authority	Lancashire
Road name	A666
Road classification	'A' road
Managed by	Local authority
Road type	Major
Start junction	Hollies Rd, Wilpshire

Location

Annual Average daily flow

Year	Count method	Pedal cycles	Two wheeled motor vehicles	Cars and taxis	Buses and coaches	Light goods vehicles	Heavy goods vehicles	All motor vehicles
2018	Estimated using previous year's AADF on this link	33	34	6455	69	1110	164	7833

6.30 billion vehicle miles were travelled on roads in Lancashire in 2020.

Annual traffic by vehicle type in Lancashire

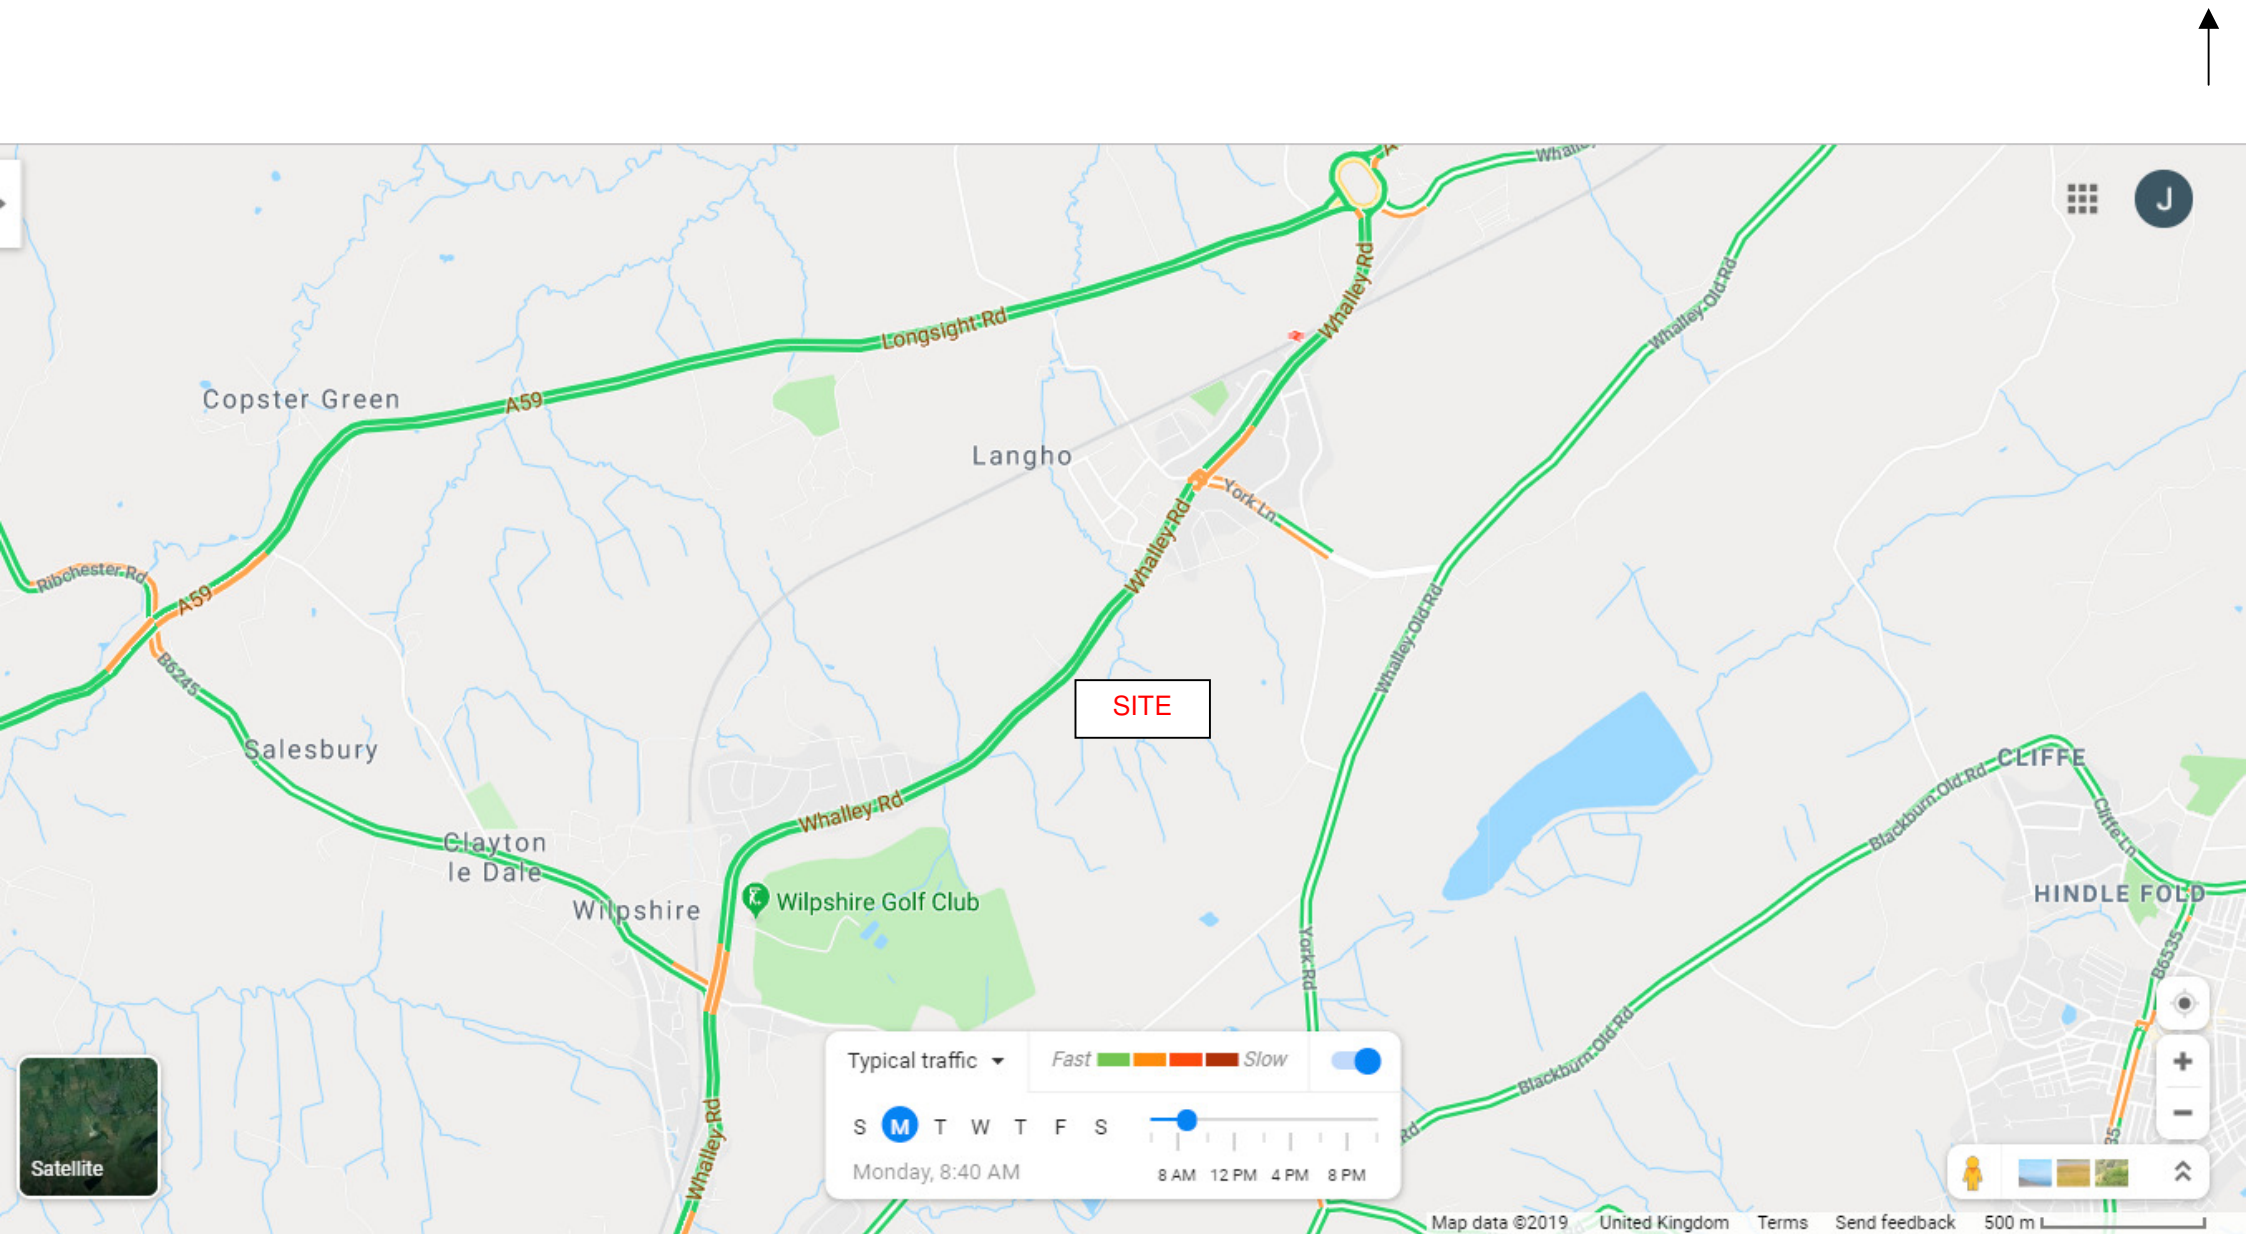

Traffic in Great Britain from 1993 to 2020 by vehicle type in vehicle miles (millions)

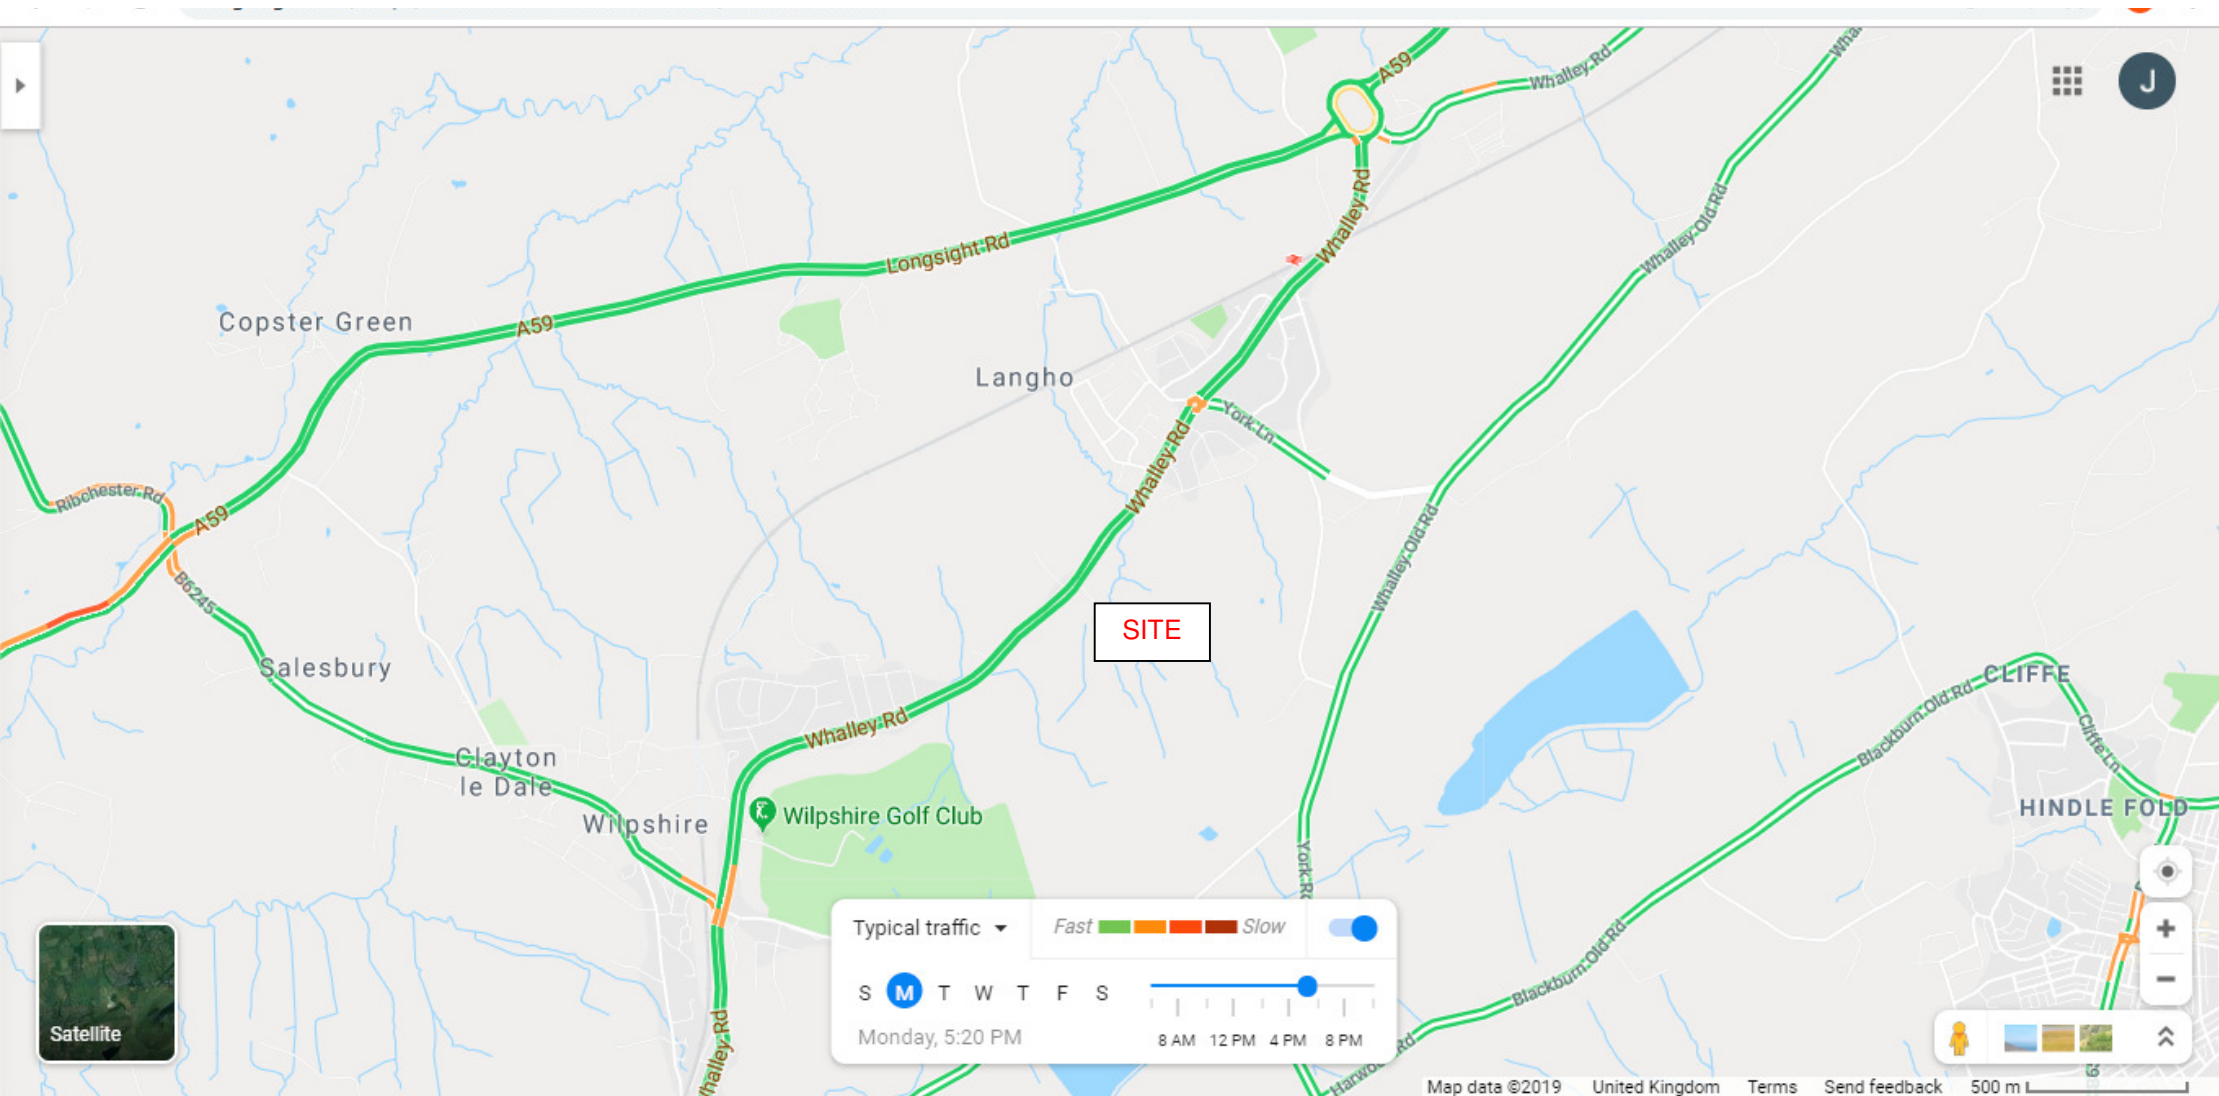

Whilst historically significant, the long term trends can be misleading in most cases due to the extraordinary circumstances observed as a result of the coronavirus pandemic. Vehicle miles travelled in Great Britain have had year-on-year growth in each year between 2010 and 2019. However, the sharp decrease in 2020 has resulted in traffic estimates that are lower than the 2010 levels. Therefore, to say traffic has fallen over the last decade would misconstrue, as the overall decrease is entirely due to the decline in traffic levels observed in the 2020 estimates.
