Description of Proposed Works

Please describe the proposed works

This proposal covers the demolition of an existing dilapidated timber garage with a dual pitch roof, and replace with a habitable garden office on the same footprint.

In addition there will be a garden shed built to a lower standard (i.e. not habitable) connected to the side of the office. The combined office and shed will share a dual pitched clerestory sheet metal roof finished in anthracite grey, the 2 buildings will be clad in a charred wood cladding so that together the 2 buildings read as one building. Windows and doors will also be finished in anthracite grey to match the house (note we are in the process of changing all windows and doors in the property to anthracite grey).

The shed part of the building will have a 45 degree cut out of it's street facing side to not encroach on the drive and to ensure the 2 buildings do not protrude beyond the front of the house.
