Re : Billington Moor, Moor Lane, Whalley

I have owned the land and farm business at the above address for approximately 20 years and have farmed it since that time. The property consists of [REDACTED] and a farm yard with 3 agricultural buildings, one used for housing cattle, one used for storage of equipment and one used as lambing shed. This property is approximately half a mile from Moor End Head Farm.

In [REDACTED] and left me [REDACTED]  
Since taking over this farm I have obtained planning permission for 2 new agricultural buildings one for housing cattle and one for housing sheep at lambing time. These buildings are due to be erected in the next two months.

Now that [REDACTED] and will have new, more modern, agricultural buildings on the site of my home the buildings at Billington Moor are no longer required and will therefore become derelict. I intend to continue to use the majority of the land at Billington Moor for summer grazing of livestock but have no use for the buildings whatsoever.

Signed [REDACTED]
