Comments: This building is the village hub for the running club..... members meet there before and after running particularly the couch to 5 k group and the more advanced runners. It is a beautiful building , and set in a beautiful garden. Lots of us support this application and would not want the council to take it away from us.

Comments: Gisburn is such a charming village and the owners of this address have taken a good approach in enhancing its charm by building an echo friendly garden room with a design that compliments the setting of park road. As I walked past the other day, I could barely see the current structure hidden behind with what looks to be like hornbeam/beechnedgerow. Therefore, me and my family fully support this application.

Comments: As a [REDACTED], I have been invited to use the garden room on many occasions as a hub to help people who need support. I feel that the garden room is a very important structure for this community. It compliments the setting and works well in its environment. Therefore, I fully support this application.

Comments: I support this application.

The garden summerhouse is typical of any well-designed summerhouse in the Ribble valley. It is hardly visible and I am surprised it needs any planning application at all.

The Gisburn Running club Meet up in this summerhouse either pre run or post for refreshments and to socialise with the community I along with many others would not be happy to see it changed.
