[REDACTED]

Dear Sir,

I write to lodge objections to Planning Application No 3/2022/0596 relating to 27 Humber Street, Longridge, PR3 3WD.

I believe Condition 9 of the original planning permission stated there would be no external lighting installed so am struggling to understand why we are being asked to pen our objections to the above planning application. It has been a [REDACTED] breach of the permission granted. [REDACTED]

[REDACTED] in with its characterful surroundings. Several visitors to the area have asked if its the [REDACTED] now the owner wishes [REDACTED] illuminate this [REDACTED]

I hope my views will be heeded, [REDACTED] natural light diminished and [REDACTED] nature in [REDACTED] gardens, hedgehogs, bats etc. I believe with these lights, nature is having to suffer. Illuminating property just deters the animals, causes loss of their habitat and routines and has far reaching effects such as global warming.

Despite living in a built-up area, we do not experience high levels of crime and therefore any excuse the lighting is for security does not stand. I'm sure the property will be alarmed, in any case.

With the ruination of our green fields surrounding Longridge, I implore you to disallow the lighting application and uphold the original planning permission and lets try to retain some of the original personality of Humber, Mersey and Severn Streets.

Yours faithfully,

[REDACTED]
