

**VERTIGO STAGE DOOR LIMITED  
OPERATION STATEMENT  
IN RELATION TO PLANNING APPLICATION 3/2022/0622**

**Site Access**

**Customers**

The Stage Door will be accessed by pedestrians through the front entry on Stanley Street, Longridge. We envisage that most customers will walk to the bar and there are adequate parking facilities in Longridge Town Centre for anyone driving. We therefore do not foresee issues with customers parking on Stanley Street.

**Staff**

All staff will be instructed to park on Warwick Street, where they will be able to access The Stage Door through the shared rear entrance with Vertigo Solutions Ltd. Staff will be expressly instructed not to park on Stanley Street.

Although the operating hours of the bar will overlap with the other businesses in the building, the bar will only start to get busy in the evening. That is when more staff are needed, but as the other business in the immediate will be closed. it will not affect the parking on Warwick street. Warwick Street typically has few parked cars outside of office hours.

**Deliveries**

As there will not be a functioning cellar to the bar, there will be no large deliveries, for example, for barrels etc. Food is not being served so there will not be daily deliveries of fresh produce. The majority of stock will be purchased directly from Cash and Carry facilities by staff, using car or car-sized vans, and will be brought on to site through the rear entrance from Warwick Street. Any other deliveries will also be directed to use the rear entrance on Warwick Street, so as not to block Stanley Street whilst loading/unloading. We don't foresee there being any other planned deliveries to the bar.

Vertigo Sound, operating on Warwick Street, is accessed by a full size vehicular access shutter door, with a dropped kerb, which is used for all loading/unloading of equipment. This space will be clearly signed to be kept free for 24hr access, and will be utilised by The Stage Door for deliveries, so as not to block through traffic on Warwick Street.

**Visitors/Contractors**

Any entertainment acts or contractors will also be directed to use the rear access door to bring in equipment or for parking. We will not be booking large bands and any acts we do book will be advised to use our own PA equipment, already installed on site, negating the need for regular deliveries of equipment to site.
