Lancashire

Planning Application Reference No.: 3/2023/0678

Address of Development: Chipping Farm Shop

Comments: I wish to object to this application to make the temporary gazebos a permanent fixture. To me they look like market stalls and as for perspex sides, surely these can not be allowed bordering a conservation area in an historic mainly stone built village.

Comments: I wish to register my objection to this application.

The two plastic gazebos on the roadside bordering a conservation area are not in keeping with the historic village. They look like temporary market stalls and visually detract from the area. I think they will look even worse if perspex sides are added. I understand that these structures served a purpose during the covid pandemic, however i do not think that they should be retained as permanent structures. There are already two cafes and two public houses in the village offering inside eating space.
