

Architectural elevation drawing of a building facade. The main section is a single-story structure with a grey tiled roof and a light grey concrete render finish. It features a central white door with a stone surround and a small light above it. To the left of the door is a large stone window with a timber frame. To the right of the door is a smaller stone window. Above the door is another stone window with a timber frame. The roof has two chimneys. The ground level is marked with various elevations. To the right of the main section is a smaller, two-story structure with a stone wall and a large glass window showing a blue sofa inside. The roof of this section is also marked with elevations.

This architectural elevation drawing shows a building facade with several distinct sections and materials. The main body of the building is finished with a light grey 'Stone' texture. A central window is labeled 'Stone' and has a height marker of 78.24. To the left, a vertical section is labeled 'RWP' (Rainwater Pipe) with a height marker of 78.03. To the right, another vertical section is also labeled 'RWP' with a height marker of 78.07. Below the main facade, there is a glass-enclosed entrance area. To the right of the entrance, a section of the wall is finished with 'Chippings Render' and has a height marker of 74.67. The roofline is marked with a height of 82.06 at the chimney and 76.86 at the gable end. The ground level is indicated by a dashed line on the left and a solid line on the right, with a height marker of 73.47 at the bottom right corner.

This architectural elevation drawing shows a building facade with a complex roofline and multiple levels. The main structure has a grey tiled roof with a central ridge line. The walls are finished with different materials: 'Stone' for the upper sections around the windows, 'Concrete Render' for the lower sections, and 'Chippings Render' for a central vertical section. The facade features several windows: a large four-pane window on the left, a smaller four-pane window in the center, and a three-pane window on the right. There are also smaller windows and a door-like opening at the base. The drawing includes numerous elevation points with numerical values (e.g., 82.12, 81.09, 78.60, 78.07, 75.93, 75.87, 75.68, 74.72, 73.90, 73.53, 73.31, 73.26, 73.18, 73.03, 72.84, 72.68) and labels for various features like 'Pipe', 'Alarm', 'SVP', 'RWP', 'Box', and 'Stone Flags'. A small section on the left shows a different material, possibly 'Stone' or 'Brick', with a small window.
