Planning Application Reference No.: 3/2023/0006

Address of Development: Proposed installation of a BT Street Hub on the pavement outside 7-9 King Street Clitheroe

Comments: Inappropriate and unnecessary large item in a conservation area where it will dominate the street scene and cause an obstruction on a narrow pavement. 24 hour intrusive constant advertising on a public highway for the benefit of private companies and no benefit for local residents or the many visitors drawn to Clitheroe. There is perfectly adequate mobile phone connection in town that renders the facilities available on such a hub irrelevant and of no use to the public.

Please record my strong objection to the installation of a BT Box advertising panel in King Street, Clitheroe.

A structure such as this, which serves no purpose other than to advertise the services of a commercial entity is utterly inappropriate in the Conservation Area of a traditional market town like Clitheroe. It seems that this panel will be higher and wider than the existing phone box and as such will be over-dominant and a most unpleasant blot on the area.

Please reject it on grounds of inappropriateness in a Conservation Area.
