Dear Sirs,

Your ref: 3/2022/0052

Planning Application No 3/2022/0052

Thank you for providing me with a copy of the above Planning Application details.

I am objecting to the above application for planning permission on the following grounds.

A number of successful previous planning applications over the years have included plans to provide landscaping to the north and west boundaries of the nursery site, no such landscape planting has been undertaken. Instead, the land to the north west of the site is being used as a sizeable rubbish tip that is growing in size on an almost daily basis; it is a total eyesore, particularly in an AONB.

[REDACTED]

I believe that the landscaping provisions included in previous planning applications be put in place and the rubbish tip removed before any further planning applications are considered.

Therefore, I ask that the Council reject this proposal.
