20 March 2023

Dear Nicola,

I am writing to you with regards to planning application 3/2023/0093, located at Dutton Mill Manor.

I fully support this planning application and the initiative being proposed by Eco Providers. I believe that their proposals will not only work to help energy conservation and tackle the challenges of climate change, but also to create numerous valuable jobs in the heart of the Ribble Valley.

Eco Providers specialise in bespoke heating and insulation upgrades, working to improve the energy efficiency of a property. With over 14 years experience in improving energy efficiency within homes, they aim to help to lower bills alongside reducing carbon emissions.

In response to the concerns that have been raised regarding the levels of traffic that such a development may bring, I have been assured by Eco Providers that traffic levels will be lower than that of the previous site and construction work and traffic vehicles shall only arrive on the site during the working hours.

I strongly believe that the initiative being proposed by Eco Providers will be of great value to the Ribble Valley, through its creation of jobs along with its role in tackling climate change. I would like to praise the dynamic leadership of those at Eco Providers and hope to see their success in energy conservation continue.
